

# Invitation to Participate in Leadership Training in Internet Governance for Persons with Disabilities

Syed Tayyab Ali Naqvi, an expert in the disbursement of cash to financially underprivileged individuals, participated in the Internet Governance Training for Persons with Disabilities. This program aims to empower individuals with disabilities, like Syed, to become advocates for accessibility and influential voices in shaping the internet governance landscape in Pakistan.

## **Leadership Skills Development:**

1. **Advocacy and Policy Influencing:**
2. **Communication and Networking:**
3. **Building Inclusive Communities:**

## **Interactive Learning Environment:**

### **1. "Learning by Doing" Workshops:**

- Actively putting new knowledge into practice through interactive sessions and group activities

### **2. Expert Facilitators:**

- Learning from renowned experts in the field of internet governance and disability rights

### **3. Networking Opportunities:**

- Connecting with fellow participants, policymakers, tech developers, and other key stakeholders

## **Future Commitment Plan for Syed Tayyab Ali Naqvi:**

Apply learned internet governance principles in the disbursement processes to ensure accessibility for individuals with disabilities.

Utilize advocacy skills to influence policies that enhance financial accessibility for underprivileged persons with disabilities.

Implement effective communication strategies in engaging with beneficiaries, stakeholders, and policymakers to promote digital inclusion.

Develop initiatives that create inclusive spaces both online and offline, ensuring equal access for persons with disabilities.

Leverage networking opportunities to collaborate with tech developers, policymakers, and other key stakeholders to enhance financial accessibility.

Syed Tayyab Ali Naqvi's participation in the Internet Governance Training equips him with the knowledge and skills to integrate digital rights and inclusion in his role as a representative for financially underprivileged persons with disabilities. The future commitment plan outlines practical steps to ensure a more inclusive and accessible disbursement process, contributing to the broader goal of shaping a digital landscape that considers the needs of all individuals in Pakistan.
